EDUCATION

Dr. C.V. Raman University

B.Tech in Civil Engineering
2023 – 2026 (Expected)

- Pursuing

Dr. C.V. Raman University

Diploma in Civil Engineering
2020 – 2023

- CGPA: 7.52 / 10.00

SKILLS

- AutoCAD 2D & 3D
- Quantity Estimation
- Quantity Surveying
- Site Supervision
- Project Management
- Construction Management
- Surveying
- Structural Drawing Interpretation
- MS Excel
- MS Word
- Technical Documentation
- Effective Communication
- Problem Solving
- Critical Thinking

LANGUAGES

- Hindi (Fluent)
- English (Intermediate)

PROFESSIONAL SUMMARY

Motivated Civil Engineering undergraduate with a strong foundation in engineering concepts and hands-on academic project experience. Skilled in site supervision, AutoCAD drafting, quantity estimation, surveying, and project coordination. Eager to contribute technical knowledge and gain practical industry exposure in a dynamic organization.

INTERNSHIPS & INDUSTRIAL TRAINING

Site Engineer Intern

Durga Construction Pvt. Ltd.

- Assisted in site supervision, coordinated with contractors and workers, and monitored daily progress.
- Ensured quality standards, safety compliance, and timely execution of work as per drawings and specifications.
- Prepared site reports, material records, and documented inspection data.

Industrial Training

L&T Construction

- Visited Tunnel Boring Machine (TBM) project site and observed large-scale infrastructure construction processes.
- Gained practical exposure to tunnel excavation methods, equipment operations, and project execution workflow.

AutoCAD Training Intern

Internshala Training

- Completed AutoCAD 2D training with practical knowledge of drafting, technical drawings, and layouts.
- Created 2D technical drawings and plans for civil engineering projects.

ACADEMIC PROJECTS

The Earthquake Resisting Building

Studied seismic analysis and design techniques to improve structural safety.

The Permeable Pavement Road

Analyzed the design and benefits of permeable pavements for sustainable stormwater management.

The Smart City Planning

Developed concepts for smart infrastructure, focusing on sustainable transportation, resource management, and urban planning.

ACHIEVEMENTS

- Completed AutoCAD 2D training with certification.
- Developed a seating structure using ferrocement, demonstrating lightweight and cost-effective construction techniques.
- Gained practical exposure in construction site operations and project coordination.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge.
